1.2.4	AA	Extended subtitles (live	not applicable	There are no audio/video theses presented 'live' in the application.
1.2.5	AA	Audiodescription (recording)	not applicable	There are no video recordings in the application.

	Level	Criterion	Status	Notes
1.3.1	A	Information and reports	not met	For some icons (mainly displayed in headings e.g. additional menus, notifications), no text description. No voice support.
1.3.2	A	Understandable sequence	positive	
1.3.3	A	Sensory properties	positive	
1.3.4	AA	Orientation – displaying content horizontally and vertically	positive	
1.3.5	AA	Determination of the correct value	positive	
1.4.1	A	Use of colour	positive	
1.4.2	A	Audio playback control	not applicable	There are no audio/video inputs to the application.
1.4.3	AA	Contrast (minimum)	positive	

	Level	Criterion	Status	Notes
1.4.4	AA	Changing text size	positive	It is possible to change the system settings for text without losing functionality.
1.4.5	AA	Text images	positive	No images of text other than the logo.
1.4.10	AA	Matching the screen	positive	
1.4.11	AA	Contrast of non-textual elements	positive	
1.4.12	AA	Text spacing	positive	It is possible to change the system settings for text without losing functionality.
1.4.13	AA	Content from below the cursor or focus	positive	
2.1.1	A	Keyboard	not met	The application does not support some external keyboards.
2.1.2	A	No keyboard trap	positive	
2.1.4	A	Single-letter keyboard shortcuts	not applicable	No additional keyboard shortcuts are used.

	Level	Criterion	Status	Notes
2.2.1	A	Time adjustment	not met	Single messages in snackbars that disappear after 5 seconds.
2.2.2	A	Pause, stop, hide	not met	Single messages in snackbars that disappear after 5 seconds.
2.3.1	A	Three flashes or values below the threshold	not applicable	There are no elements that can cause flickering or video recordings.
2.4.1	A	Possibility to skip blocks	not applicable	The criterion does not apply to mobile applications.
2.4.2	A	Page titles	not applicable	The criterion does not apply to mobile applications.
2.4.3	A	Focus sequence	positive	
2.4.4	A	Purpose of the link (in context)	positive	
2.4.5	AA	Many paths	not applicable	The criterion does not apply to mobile applications.
2.4.6	AA	Headings and labels	positive	
2.4.7	AA	Visible focus	positive	
2.5.1	A	Touch gestures	not applicable	The application does not use multi-point gestures for support.

	Level	Criterion	Status	Notes
2.5.2	A	Cancellation of indication	positive	
2.5.3	A	Label in the name	positive	
2.5.4	A	Activating with movement	not applicable	The application does not use traffic activation to support.
3.1.1	A	Website language	positive	
3.1.2	AA	Language of the parts	not applicable	The criterion does not apply to mobile applications.
3.2.1	A	Upon receipt of the focus	positive	
3.2.2	A	During data entry	positive	
3.2.3	AA	Consistent navigation	positive	
3.2.4	AA	Coherent identification	positive	
3.3.1	A	Identification of error	positive	
3.3.2	A	Labels or instructions	positive	

	Level	Criterion	Status	Notes
3.3.3	AA	Suggestions for correcting errors	positive	
3.3.4	AA	Prevention of errors (legal, financial, data)	positive	
4.1.1	A	Code correctness	positive	
4.1.2	A	Name, role, value	positive	
4.1.3	AA	Status messages	positive
